Chancellor, Elizabeth City State University

Honorable Steve Atkinson
Mayor, City of Elizabeth City, NC

Invocation Dr. John W. Luton
Professor, Language, Literature and Communication, ECSU

****LUNCH****

Recognition Dr. Linda Hayden
Associate Dean, Professor, School of Mathematics, Science and Technology
Elizabeth City State University

Introduction of Keynote Speaker Mr. Charles Luther
Past President of the IEEE-Geoscience and Remote Sensing Society

Keynote Speaker Dr. Mohan Munasinghe
2007 Nobel Peace Prize Co-Winner on Global Warming

Topic: An Integrated Response to Climate Change and Sustainable Development Challenges –
Applying the Sustainomics Framework

Presentation Dr. Willie J. Gilchrist
Chancellor, Elizabeth City State University

Closing Remarks Dr. Johnny L. Houston
Senior Research Professor, School of Mathematics, Science and Technology
Elizabeth City State University

The Chancellor's Distinguished International Visiting Scholar Lecture Series

Professor Mohan Munasinghe

Professor Mohan Munasinghe is Vice Chairman of the United Nations Intergovernmental Panel on Climate Change (IPCC) in Geneva, co-winner of the 2007 Nobel Peace Prize for work on global warming.

Born in Sri Lanka in 1945, he has earned post-graduate degrees in engineering, physics, and development economics from Cambridge University (UK), Massachusetts Institute of Technology (USA), and McGill University and Concordia University (Canada).

Currently, he is Chairman, Munasinghe Institute of Development (MIND), Colombo; Honorary senior Advisor to the Sri Lanka Govt.; and Visiting Professor, United Nations University, Tokyo. During 35 years of distinguished public service, he has served as Senior Energy Advisor to the President of Sri Lanka, Advisor to the United States President's Council on Environmental Quality, and Senior Advisor/Director, World Bank. He has taught as Visiting Professor at a number of leading universities worldwide.

He has won many international prizes and medals for his research and its applications. He has authored 90 books and over three hundred technical papers on economics, sustainable development, climate change, power, energy, water resources, transport, environmental disasters, and information technology.
