CRISIS Dress Code Guidelines for Students

The CRISIS dress code is designed to provide a standard of personal care, safety, and pride in appearance. It is the belief of the program that students should be conscious that the quality of their appearance is an important life-skill. **Students should dress to bring pride to themselves, to their school, and to our program.** All students are required to know and follow the dress code and to dress accordingly each day. Certain modes of dress are considered disruptive to the normal educational process and will not be allowed. The following are dress code guidelines.

Consequences for violating the dress code

Students wearing clothing that does not comply with the dress code will be requested to change, remove the item(s), and/or cover up. In addition, students who depart from the dress code expectations may receive a verbal warning or written warning. In some cases, the student may be sent home if violations continue. The Principal Investigator will make the final determination on resolution of dress code violations.
