Paper and Poster Abstract Submission

The following directions must be complied with. Papers or poster abstracts not complying will not appear in the Proceedings.

You will use one of the attached Microsoft Word ™ documents for your submission. Please note that Microsoft Word is a paragraph oriented application. Each paragraph in the example documents has a name and format. DO NOT CHANGE ANY PARAGRAPH FORMATS.

Embedded graphics should “float” with the text. Use the insert object feature to ensure that is complied with.

It may be necessary to slightly reformat your document for inclusion in the Proceedings. If your document does not conform to the requirements, it will probably require time-consuming measures to do so. In that case, your document will not appear in the Proceedings.

Other information

If you receive financial support to attend ADMI, please read below:

1) Understand that you are required to attend all Symposium functions.

2) Dress is usually business casual. Excepting the banquet and oral presentations.

3) Regular meals and accommodations will be provided.
